

Eurobond places the environment and its protection at the top of our agenda

Eurobond manufactures internal and external non-combustible, mineral wool composite panels and standard and bespoke specialised, insulated and steel doors

We recognize that our day to day operations and our products can directly and indirectly make an impact upon the environment and are committed to achieving the highest standards of environmental best practice in all aspects of our business

To achieve this, by dedicating the necessary resources, we pledge to;

- Comply with all relevant local, national and international legislation and codes of practice and, where feasible and cost effective, adopt the best available technique
- Apply strict quality controls by implementing an Environmental Management System to elevate levels of waste minimisation and recycling, reduce energy consumption and improve efficiency to achieve accreditation to ISO 14001
- Be committed to a programme of continuous improvement through a series of set objectives and targets
- Evidence our responsible attitude to the protection of natural resources and climate change through viable end of life solutions including recycling of waste streams
- Demonstrate a commitment to the prevention of all forms of pollution
- Foster and realize positive environmental practices throughout the company through training and individual responsibility
- Work with and encourage our supply partners, customers and hauliers to adopt and promote an effective environmental approach
- Protect and enhance all of our working environments with an understanding of the effect our operations may have on them
- Communicate our environmental commitment and achievements to staff, customers, partners and suppliers
- Seek out and respond to new opportunities to reduce the environmental impact of our products and manufacturing methods
- Hold regular reviews and audits of the Environmental Management System to ensure that the system remains effective

All employees are responsible for working towards the objectives contained within this policy

The Environmental policy will be made available to all interested parties on request
